

Since 1991, DAVID Systems innovates with software for the broadcast industry. Our standard or tailored solutions help media organizations to improve collaboration, produce news faster and distribute content over broadcast and other emerging tri-media services. All aspects of a media workflow can be addressed with the DigaSystem® Media Asset Management, supplemented by DAVID's modules from Ingest to playout. Integration with the enterprise IT infrastructure and third party application are enabled via open and standards based interfaces.

Leading public and private Radio and Television stations worldwide trust DAVID Systems' innovation and services capabilities for their operations and their evolution as rich media providers.

We are reinforcing our Customer Solutions Group (CSG) and are looking Germany-wide for a

Senior Solution Consultant (M/F)

reporting to the CSG Management and delivering our project activities.

Your Position and Tasks:

- Effective management of approved projects from receipt of order to implementation of output; provide constant feedback on possible process improvements
- Focus on developing long-term client relationships by delivering superior quality results on time within scope, and on budget
- Act as leader for technical solution delivering for key accounts, integrating the resources from CSG, R&D and Sales
- Support Sales with pre-sales and consulting activities with the goal to close deals that are profitable for the company

Your Profile:

- Diploma/Master Degree in Engineering (Dipl.-Ing.), Business and Engineering (Dipl.-Wirtsch.-Ing./Dipl.-Wirtsch.-Inf.) or equivalent experience
- Rich experience in the media industry, ideally with focus on high-value software, consulting, management or pre-sales technical support.
- Strong project management, problem-solving and solution oriented thinking abilities
- Client oriented attitude paired with distinct customer mindset
- Self-motivated and responsive to internal and customer requirements
- Strong orientation of success, passion to work, good influence skills, good at information gathering and analysis, very good team player
- Willingness to travel significantly is required
- Standard-IT expertise (Network, OS, DB, Storage...)
- DigaSystem and 3rd party related broadcast-integration know-how is a plus

If you are looking for a personal challenge in a growing international company from Bavaria and motivated to work in an innovation and teamwork powered environment, we look forward to your application. Please send your application including your salary expectations and potential start date to:
