- You are process oriented and eager to be part of a modern Scrum development process

If you are looking for a personal challenge in a growing international environment, you should not hesitate to send your application to Rosemarie Mohr: join@davidssystem.com

About DAVID Systems

DAVID Systems is a leading international developer and supplier of end-to-end content production and distribution solutions for broadcasters. The company, founded in 1991, is headquartered in Munich, Germany, and has a subsidiary in the United States. We have long been known for our open, customizable and scalable software for individual workflows and third-party integration. Our products are story-centric, providing journalists and broadcasters a smooth transition to a cross-media world where they produce and deliver content faster, to more channels (e.g. DAB+, Web) and at significantly lower cost. Public and private broadcasting stations worldwide (Arte in France, BR, SWR, MDR, RBB, WDR and Antenne Bayern in Germany, ORF and Red Bull Media House in Austria, RTS, RTR, SRF, RSI and Radio Top in Switzerland, RTL 102.5 and Südtirol 1 in Italy, Canal Sur in Spain, NRK, Sveriges Radio, P4 in Scandinavia, Metro Radio and Phoenix TV in Hong Kong, NPR, WNYC and WAMU in the U.S.) etc. rely on our expertise and solutions. A global partner network ensures local customer interfacing, while DAVID Systems' Customer Solutions Group provides individual consulting, support and training.
